**-----Start Training Now -----****----- Why "RUN" club??? -----**

A Sport Club is defined as a registered student organization that exists to promote and develop interest in a particular sport or physical activity.

Our focus may be recreational, instructional, competitive, or a combination of these types of activities based on its constitution.

Our Clubs are strictly voluntary and involvement in a Sport Club should enhance the student's college experience and contribute to the student's overall education and wellness.

All Programs are based on student interest and designed to enhance the Dickinson experience by creating an environment where students unite in diverse groups to achieve common goals and objectives while encouraging healthy lifestyle.

SWpoet club provide a valuable learning experience through student involvement in fundeaising, public relations, organization, administration, budgeting, scheduling, teaching, and leadership development.

the club with the most success and stability are those with active member and dedicated officers.

**-- Responsibilities --**

# Follow the SCC constitution and by-laws.

# Conduct an SCC meeting at least once per month

# Review and approve clubs seeking new admittance and/or reinstatement into the program.

# Collage-wide representation of the sports clubs program at events, programs, etc.

# All SCC recommendations and/or actions are subject to approval or rejection by the Director of Intramurals.

### ----- " Different Clubs And Sports " -----

**There are several types of clubs:-**

#### **Volleyball**

"*Rum*" Club Volleyball provides opportunities for players and coaches who enjoy volleyball to participate in a quality program catering to various levels of play beyond the traditional school session. The BC club season runs from January to May-with many clubs hosting try outs in December / early January. For players pursuing the Team BC High Performance Program, club participation is an essential part of their development. Youth Club Volleyball policies and directions are determined by the Volleyball BC Regional Development Committee with assistance from Volleyball BC staff. This committee is comprised of the regional managers, staff and volunteer members from various

Regional Development Committee with assistance from Volleyball BC staff. This committee is comprised of the regional managers, staff and volunteer members from various regions. Please read below for information on club volleyball, including, but not limited to, our club handbook, competition calendar and FAQs. For all club details (including try outs and training times), please contact CLUBS DIRECTLY. Full listings are available here.

### **Football**

A football team is a group of players selected to play together in the various team sports known as football. Such teams could be selected to play in a match against an opposing team, to represent a football club, group, state or nation, an all-star team or even selected as a hypothetical team (such as a Dream Team or Team of the Century) and never play an actual match. There are a number of references to traditional, ancient, or prehistoric ball games played in many different parts of the world. Contemporary codes of football can be traced back to the codification of these games at English public schools during the 19th century. The expansion and cultural influence of the British Empire allowed these rules of football to spread to areas of British influence outside the directly controlled Empire. By the end of the 19th century, distinct regional codes were already developing: Gaelic football, for example, deliberately incorporated the rules of local traditional football games in order to maintain their heritage. In 1888, The Football League was founded in England, becoming the first of many professional football competitions. During the 20th century, several of the various kinds of football grew to become some of the most popular team sports in the world.

### **Badminton**

"singles" (with one player per side) and "doubles" (with two players per side). Badminton is often played as a casual outdoor activity in a yard or on a beach; formal games are played on a rectangular indoor court. Points are scored by striking the shuttlecock with the racquet and landing it within the opposing side's half of the court. Each side may only strike the shuttlecock once before it passes over the net. Play ends once the shuttlecock has struck the floor or if a fault has been called by the umpire, service judge, or (in their absence) the opposing side. The shuttlecock is a feathered or (in informal matches) plastic projectile which flies differently from the balls used in many other sports. In particular, the feathers create much higher drag, causing the shuttlecock to decelerate more rapidly. Shuttlecocks also have a high top speed compared to the balls in other racquet sports. The flight of the shuttlecock gives the sport its distinctive nature. The game developed in British India from the earlier game of battledore and shuttlecock. European play came to be dominated by Denmark but the game has become very popular in Asia, with recent competitions dominated by China. Since 1992, badminton has been a Summer Olympic sport with four events: men's singles, women's singles, men's doubles, and women's doubles, with mixed doubles added four years later. At high levels of play, the sport demands excellent fitness: players require aerobic stamina, agility, strength, speed, and precision. It is also a technical sport, requiring good motor coordination and the development of sophisticated racquet movements.

### **Swimming**

Swimming is an individual or team racing sport that requires the use of one's entire body to move through water. The sport takes place in pools or open water (e.g., in a sea or lake). Competitive swimming is one of the most popular Olympic sports, with varied distance events in butterfly, backstroke, breaststroke, freestyle, and individual medley. In addition to these individual events, four swimmers can take part in either a freestyle or medley relay. A medley relay consists of four swimmers who will each swim a different stroke, ordered as backstroke, breaststroke, butterfly and freestyle. Swimming each stroke requires a set of specific techniques; in competition, there are distinct regulations concerning the acceptable form for each individual stroke. There are also regulations on what types of swimsuits, caps, jewelry and injury tape that are allowed at competitions. Although it is possible for competitive swimmers to incur several injuries from the sport, such as tendinitis in the shoulders or knees, there are also multiple health benefits associated with the sport.
